ADVANCED  
AUTOMATION**  
Bangalore - 560 021. INDIA

# HYDRAULIC HAND "PALLET TRUCK"

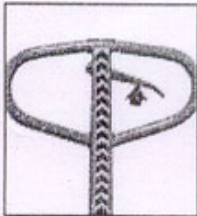

## FEATURES

- EASY TO OPERATE
- SLEEK IN DESIGN
- SILENT IN OPERATION
- ZERO OIL LEAKAGE
- ZERO MAINTENANCE
- MAXIMUM MANOEUVRABILITY
- REQUIRE MINIMUM LIFTING/  
PULLING FORCE.
- ALL ROOLERS MADE OUT OF  
"UHMW" MATERIAL.

Model : PT-25 : 2500 Kgs  
 Model : PT-15 : 1500 Kgs  
 Model : PT-10 : 1000 Kgs

DRAWBAR

With finger protection  
clamp and release

NOSE WHEELS

Facilitates easy entry into  
double layered pallets  
Model : PT-15/10

LOAD WHEELS

Bogie mounted for  
driving on uneven floors  
Model : PT-25

STEERING WHEELS

Dustfree running **UHMW**  
Wheels with doublesealed  
bearings

BRAKES

Foot operated parkig  
brake is available as an  
option

BAA offers hard chrome plated & polished pistons that are resistant to rust, scratches and wear.

BAA offers double sealed high pressure polyruethane packings.  
 • To ensure longlife of the hydraulic system.  
 • To prevent leakages.

BAA offers an ergonomically designed steering handle  
 • For easy operation from all angles.  
 • To reduce pulling power and minimizes operator fatigue.

BAA offers pivoting steering wheels  
 • To ensure constant floor contact and stability  
 • To reduce wear and tear on the wheels

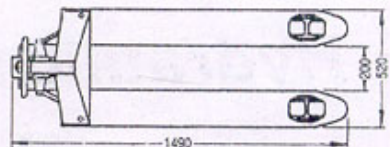

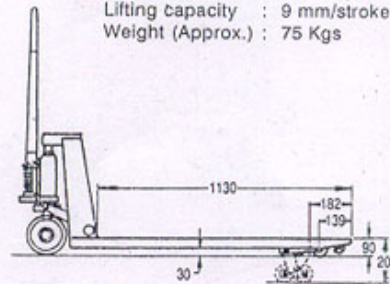

BAA offers double sealed ball bearing to ensure dust free operation

BAA offers tailor made versions also for specific requirements such as paper rools, high unstable loads, special fork lengths, galvanised and stainless steel versions

## SPECIFICATION

Load capacity : 2500 Kgs  
 Lifting capacity : 9 mm/stroke  
 Weight (Approx.) : 75 Kgs

Designed, Manufactured & Marketed by
