# TELESCOPIC LIFT - Hydraulic

**Models : TEL - 6 / 8,  
TEL - 8 / 10,  
TEL - 10 / 12**

## SYSTEM DESCRIPTION

BAA - Make Telescopic lift- Hydraulic type are ideal devices to use incase of any machineries assembly, electrical and mechanical maintenance jobs.

Vertical lifting by Hydraulic & Smooth. A solenoid valve to be actuated for lowering, & incase of Power failure, the same valve can be actuated manually. Pendent provided on the platform it self for ease of operation. tyres will be of pneumatic type standard. Adjustable, telescopic type jacks provided for more stability during usage.

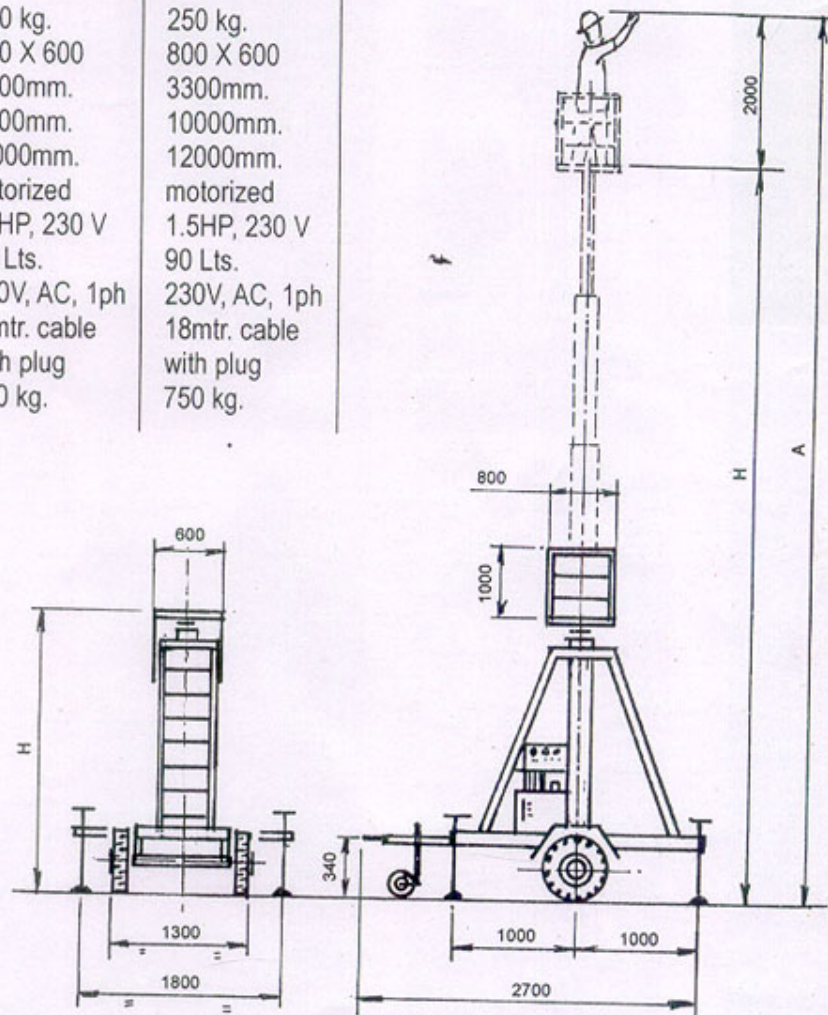

Since it is of light weight, whole device can be towed by any vehicle.

## TECHNICAL SPECIFICATIONS

Models	TEL - 6 / 8	TEL - 8 / 10	TEL - 10 / 12
Safe working load	250 kg.	250 kg.	250 kg.
Platform size in mm	800 X 600	800 X 600	800 X 600
Lifting Height Min. h	2700mm.	3000mm.	3300mm.
Lifting Height Max.	6000mm.	8000mm.	10000mm.
Reach Height A	8000mm.	10000mm.	12000mm.
Type of lifting Hyd.	Motorized	motorized	motorized
Motor capacity	1 HP, 230 V	1.5HP, 230 V	1.5HP, 230 V
Tank Capacity	40 Lts.	65 Lts.	90 Lts.
Power input / Cable	230V, AC, 1ph 10mtr. cable with plug	230V, AC, 1ph 10mtr. cable with plug	230V, AC, 1ph 18mtr. cable with plug
Total weight	350 kg.	550 kg.	750 kg.

## BAA - TEL - ADVANTAGES

- Stability in height.
- Toweble design.
- One man operation.
- Zero maintenance
